

Promoting responsible cycling

When cycling in the historic centre pedestrian zone:

DO

- Cycle at a reasonable speed
- Expect pedestrians to be walking in the road
- Be prepared to dismount and walk with your cycle if the streets are crowded with pedestrians
- Respect the needs of pedestrians
- Give extra room and time to parents with children and the frail and elderly

Cycling

DON'T

- Ride on pavements
- Cycle aggressively
- Expect that pedestrians will only walk on the pavements
- Expect pedestrians to be aware of approaching cyclists
- Cycle the wrong way in one-way streets
- Assume that pedestrians can hear either you or a bike bell
