

CHISHOLM TRAIL CYCLE DIVERSION ROUTES

Progress on the new walking and cycling trail means there are some closures to existing routes. The map below shows some suggested alternatives for people cycling. Many of these routes include quieter roads and off-road sections, but note that those using them proceed at their own risk. If possible, we recommend testing your diversion route before the new closure point is in place.

NEWMARKET ROAD CLOSURE POINT

This section of Newmarket Road will be closed to all traffic, including pedestrians and cyclists, for a week **between 8pm on Friday 26 March and 6am on Friday 2 April** while a new underpass is installed.

JETTY LINK CLOSURE POINT BY THE RIVER

The jetty link under the bridge, part of National Cycle Network route 51, has been closed since August 2019. Reopening has been delayed by wet ground conditions, but is expected by summer 2021.

OTHER NEWMARKET ROAD TRANSPORT DIVERSIONS

- For motor traffic, there will be a signed diversion in place via Barnwell Road and Coldham's Lane.
- Bus stops will be suspended between Coldham's Lane junction and Barnwell Road with alternative services in place.
- There will be a shuttle bus for pedestrians with pick-ups either side of the closure point.
